“These are all those which I’ve Completed from start till end further as A full Stack Freelancers/Developer I’ve worked on a lot of projects that are live now too can’t really count every single on fingers”

SUCCESS

Google Street View – Covered most of the 360 Street View of Karachi, and the highest 360 Contribution in Pakistan

KARACHI | 2021

If we look over Pakistan's Map there're actually very few 360 Street View blue lines over the map, and as I live in Karachi there So I added 360 map view of the main areas of Karachi which helped a lot of people I successfully covered more than 500 KM of 360 View of Karachi which is actually the biggest 360 GSV's contribution in Pakistan. and it already got more than **50 Million** views in really less time.

Learn more about it:
